- Advanced Light Management Technology

FLEXIBILITY

Designed for quick, simple and intuitive installation the C-Series boasts a range of complementary accessories to support a variety of installation needs, making it extremely versatile.

As a ceiling mounted camera, users will experience the best in 360-degree fisheye and based on use case, also simultaneously stream 2 and 3-way Corridor, and VCam views. When wall mounted, the C-Series is transformed into a 180-degree camera to deliver natural dewarped Panoramic+ views.

STORE FLOOR (C-08 INDOOR - 8MP 360-DEGREE IP CAMERA)

- Complete 360-Degree overview
- Detailed coverage of smaller areas
- A single 360-degree camera can replace four to five narrow field-of-view cameras, which can significantly reduce costs
- Up to 30fps on primary stream with 3 other streams running
- StreamLite compression technology

PARKING LOT (C-12 OUTDOOR - 12MP 180-DEGREE PANORAMIC+)

- Detailed coverage of larger areas (Natural ultra-wide panorama)
- 180-Degree Panoramic+ view (Ideal for wall mounted cameras)
- True edge-to-edge 180-degree image from a single sensor camera, with no blind spots, stitching, alignment or light issues
- StreamLite+ compression technology
- TrueDetail HDR at 30fps
- Advanced Light Management Technology
